Coal Operators' Conference

Call for Abstract

Conference Supporters:

Aus IMM - Illawarra Branch

Mine Managers Association of Australia

The next Coal Operators' Conference 'Coal2016' is scheduled for February 11 and 12th, 2016 at the University of Wollongong. The two day conference will address issues related to various aspects of modern coal mining operations both surface and underground. Accordingly, papers are invited from the following topics:

- ★ Surface mining.
- ★ Geology,
- ★ Heading development,
- ★ Mining methods; longwall, bord and pillar, top coal caving and hydraulic mining,
- ★ Equipment and machinery performance or innovations,
- ★ Ground control and strata management,
- ★ Longwall and roof fall recovery,
- ★ Instrumentation and monitoring,
- ★ Rock bolting, cable bolting or other roof support techniques,
- ★ Mine subsidence,
- ★ Mine ventilation, mine gas drainage and outburst control,
- ★ Mine fires and explosions,
- ★ Mine flooding,
- ★ Risk management,
- ★ Mine management and mine contract,

We strongly encourage receiving papers from coal mine operations, as well as fundamental and applied coal mining research

Abstract submission	August 28 th , 2015
Acceptance of the paper based on abstract	September 15 th , 2015
Date of full paper submission	November 27 th , 2015
Conference day	February 11, 2016
